

22/nov	NVG Meeting 2023	
17:00	Registration	
18:00	Dinner	
	Dobberke Lecture (Chair: Marc Naguib)	
20:00	What amphibians can teach us about the evolution of parental care	Eva Ringler
21:00 (tot 23:00)	Bowlen @ Zuiderduin	
23/nov	(25+5min)/(12+3min)	
Session 1	Social Behaviour (chair: Kat Bebbington)	
9:30	KEY NOTE Multi-level social structure and cooperative behaviour in a small songbird	Anne Peters
10:00	Wild zebra finch pairs display extreme spatial cohesion	Chris Tyson
10:15	Do as your neighbours do? Breeding synchronisation in a colony living passerine.	Berber Maarsingh
10:30	Growing up in a crowd - the early life of lesser black-backed gull chicks	Wendt Müller
10:45	Coffee	
Session 2	Animal behaviour (chair: Christian Tudorache)	
11:15	Attentional bias towards actors in a social interaction	Tonko Zijlstra
11:30	Hand preference predicts behavioral responses to threats in Barbary macaques	Eva van Dijk
11:45	Inside the head of a dog - pet dogs' understanding of human knowledge	Jori Noordenbos
12:00	Lunch (take away)	
12:30	Beach Walk	
Session 3	Advances in Primate Research (chair: Michelle Spierings)	
14:30	KEY NOTE The scope of culture in non-human animals: a primatological approach	Edwin Van Leeuwen
15:00	The Older the Better: Infanticide Is Age-Related for Both Victims and Perpetrators in Captive Long-Tailed Macaques	Karlijn Gielen
15:15	Isochrony in Successive Vocal and Motoric Elements of Display Behaviour in Captive Chimpanzees (Pan troglodytes)	V. Hovenkamp/B. Van de Vleuten
15:30	The function of food: Behavioral and gut microbiome changes following a dietary intervention in zoo-housed chimpanzees	Nicky Staes
15:45	Coffee	

Session 4	Urban Ecology and Conservation (chair: Wouter Halfwerk)	
16:15	Urbanization as a driver of phenotypic changes across multiple life stages	Andrew Cronin
16:30	Pelagic fish presence and behaviour during pile driving in two windfarms	Jeroen Hubert
16:45	Can we deter herring with sound?	Fien Demuyncck
17:30	Posters (open end!)	
18:00	General Assembly	
19:00	Dinner	
	Baerends Lecture (Chair: Marc Naguib)	
20:00	My niche: evolution and ecology of individual behavioural difference	Melanie Dammhahn
24/nov		
Session 5	Behavioural Ecology (chair: Kat Bebbington)	
9:30 KEY NOTE	Eco-evolutionary consequences of dispersal syndromes	Marion Nicolaus
10:00	Origin-dependent effects of urban sensory conditions on rival interactions and mate choice in urban and forest túngara frogs	Judith Smit
10:15	The effect of increased perceived predation risk on parental investment in dark-capped bulbuls (<i>Pycnonotus tricolor</i>)	Caroline Heylen
10:30	Early life adversity affects social network position independent of 'personality'	Simon Verhulst
10:45	Coffee	
11:00	Posters	
Session 6	Behavioural Ecology II (chair: Wendt Müller)	
11:45	Genomic footprints of urban life in túngara frogs	Peter Moran
12:00	Ephemeral Resource Availability Makes Wild Guppies More Social	Lysanne Snijders
12:15	Weather Conditions Influence Breeding Initiation of an Intra-Tropical Migrant Bird	Ayke Haller
12:30	Who is calling? Do common marmosets use pitch contour information to differentiate between conspecifics?	Julia Viktoria Grabner
13:00	lunch	
14:00	prizes	
15:00	End of the meeting
